High-definition LCD screen

The use of an Ultra-Transparent Tempered Glass and Capacitive Touch Screen generates gorgeous picture quality and deliver perfect user experiences.

MULTI-SCREEN INTERACTION

Music/Video Player
 Support installing multiple audio/video software via USB transmission.
 Wireless Screen Projection*
 When projecting, the phone can turn off the screen, make calls, run apps.
 No more barriers between screens of different sizes.

*The phone must be kept in the same WIFI environment with the treadmill when projecting the screen

LEADERBOARD

The users can view the rankings of global runners after logging in.
 Clubs can also create an exclusive club community for ranking interaction among members.

BLUETOOTH INTERCONNECTION

Interact with major connected running app through BTMS protocol to transmit running datas.

PERSONAL AND EXCLUSIVE USER ACCOUNT

Users can create their own private accounts, saving and viewing running data at any time.
 Users can download the exclusive app on the mobile phone to view and share the running data *.

*The app and this function are still in development will be revealed soon.

ENTERTAINMENT

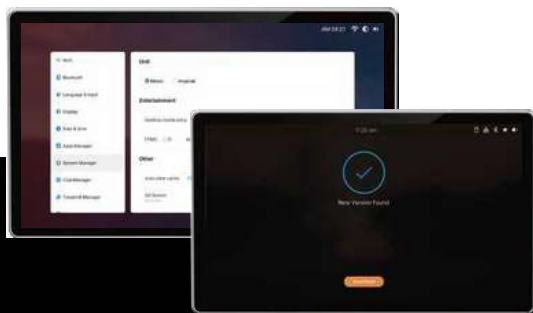

Supports multiple online applications such as web browsers and media Apps*
 Supports local music and video playback
 Great entertainment which delivers perfect running experience

*Only the Apps which are congrued with our treadmill can be installed.

OVER THE AIR (OTA) UPGRADE

A full team of engineers to continuously upgrade software and functions to deliver better and better running experience for users.

CONTINUOUS VERSION UPGRADE

Based on user insights, we keep improving our software to upgrade services and product performance.

MULTIMEDIA RELEASE

Club owners can independently publish posters ,videos* and other multimedia onto multiple treadmills at the same time, promote their own activities, third-party business advertisements or other information, and get more exposure.

ONLINE FEEDBACK

Club owners can report any issues through the treadmill. Making it easier to locate and troubleshoot any specific treadmill problems.

*Video format needs to be MP4 and with 720dpi resolution, within 50MB.
